Step 5

This will help to ensure all Bolts and gaps reach full alignment status. If no wobbles found, proceed to tighten all the bolts. **DO NOT** fully tighten a **BOLT** in one go and then move on to the next. Rather, In a sequential manner, gradually tighten each Bolt until all bolts are evenly secured. This methodology will ensure maximum evenness once all Bolts are fully tightened. Now tighten all the bolts until the chair is not wobbling on the **LEVEL SURFACE**.
