The goods

IMPORTANT

1. Do not tighten bolts / screws completely until all bolts / screws are lined up and inserted into holes.
2. Do not over tighten screws and bolts to avoid stripping.
3. Please use hand tools to assemble this product.

Step 1: Using the Mounting Installation Template

Unroll it

Unroll the paper Mounting Installation Template (6) and remove the adhesive backing at the corners.

Place it

Locate where you would like to mount the nightstand and apply the Mounting Installation Template (6) to the wall in that location. Make sure the template and holes are level.

Mark it

Using the holes in the template as your guide, mark the location of each hole on your wall. These will become your reference points as to where to drill holes for the wall anchors.

Remove it

Slowly remove the paper, ensuring that all holes have been marked.

Drill it

Drill each hole to the suggested size.

Important Note:

Non-drywall = $\frac{1}{4}$ " drill bit

Drywall = $\frac{5}{16}$ " drill bit

Step 2: Non-drywall

At one point, you may find this step tricky, but it's worth the 20 second meltdown—because everything will look SO clean at the end...you'll forget about it in no time!
