- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

Assembly Steps

Overview

This chair has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the chair parts, the above picture is provided to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Open the carton, and place all parts on a clean, non-marring surface.

Take out Seat(A), Back leg(D) and Front Leg(E). Turn the Seat(A) over.

Align the holes in the Front leg(E) with the holes in the front of the chair. Using Spring Washer(4), Bolt(3) with Allen wrench(6) to lock it.

Align the holes in the Back leg(D) with the holes in the front of the chair. Using Spring Washer(4), Bolt(2) with Allen wrench(6) to lock it.

Do Not Fully Tighten the Bolts.

Step 2

Take out Headrest(C).
Insert the Headrest(C) into the seat cushion as shown. Unzip the zippers on both sides of the back of the seat. Use Bolt(①) with Allen wrench(⑤) to tighten it.

Step 3

Place the Chair right side up and tested for stability. Put Mat(B) at the bottom of Seat as shown.

Fully Tighten all the bolts.

Your Chair is ready for use.

This CHAIR can only be used on a flat, level surface.

Questions & Answers about Proposition 65

- What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

- What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

- What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

- Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
