SPECIAL WARNING

INSTALLATION AND SERVICE MUST BE PERFORMED BY A QUALIFIED INSTALLER.

IMPORTANT: SAVE THIS INSTALLATION MANUAL FOR LOCAL ELECTRICAL INSPECTOR’S USE.
READ AND SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE.

CLEARANCES AND DIMENSIONS

For SAFETY CONSIDERATIONS do not install drawer in any combustible cabinetry, which is not in accord with the stated clearances and dimensions on pages 2 and 3. See Figure 1 (for 24") or Figures 3 and 4 (for 30") .

UNPACKING YOUR MICROWAVE DRAWER

• Remove all packing materials from inside the Microwave Drawer. DO NOT REMOVE THE WAVEGUIDE COVER, which is located on the top of the Microwave Drawer.
• Remove the feature sticker, if there is one. Check the drawer for any damage, such as misaligned or bent drawer, damaged drawer seals and sealing surfaces, broken or loose Microwave Drawer guides and dents inside the cavity or on the front side of the drawer. If there is any damage, do not operate the Microwave Drawer and contact your dealer or a SHARP AUTHORIZED SERVICER.

IMPORTANT NOTES TO THE INSTALLER

• Read all of the Installation Manual before installing the Microwave Drawer.
• Remove all packing material before connecting the electrical supply.
• Observe all governing codes and ordinances.
• Be sure to leave these instructions with the consumer.

IMPORTANT NOTES TO THE CONSUMER

Keep this manual with your Operation Manual for future reference.
• As when using any microwave oven generating heat, there are certain safety precautions you should follow. These are listed in the Operation Manual. Read all and follow carefully.
• Be sure your Microwave Drawer is installed and grounded properly by a qualified installer or service technician.

IMPORTANT SAFETY INSTRUCTIONS

WARNING If the information in this manual is not followed exactly, a fire or electrical shock may result that could cause property damage, personal injury or death.

WARNING To reduce the risk of tipping, the Microwave Drawer must be secured by a properly installed Anti-Tip block.
• This Microwave Drawer must be electrically grounded in accordance with local codes.
• Make sure the wall coverings and the cabinets around the Microwave Drawer can withstand the heat generated by the Microwave Drawer.

WARNING Never leave children alone or unattended in the area where a Microwave Drawer is in use. Never leave the drawer open when the microwave is unattended.

WARNING Stepping, leaning or sitting on the drawer may result in serious injuries and can also cause damage to the Microwave Drawer.
• Do not use the Microwave Drawer as a storage space. This creates a potentially hazardous situation.
• Check that the time-of-day is in the display. If not, touch Stop/Clear to prevent unintended use.
CLEARANCES AND DIMENSIONS

- Dimensions that are shown in Figure 1 (for 24") or Figures 3 and 4 (for 30") must be used. Given dimensions provide minimum clearance. Locate electrical outlet in the shaded area in the upper left-hand corner of the cutout. See Figure 7.
- Contact surface must be solid and level. Pay special attention to the floor on which the Microwave Drawer will sit. The floor of the opening should be constructed of plywood strong enough to support the weight of the oven (about 100 pounds).
- Check location where the Microwave Drawer will be installed for proper electrical supply.
- Your oven can be built into a cabinet or wall by itself or under a gas or electric wall oven.
- Be sure that the clearance of the floor between the wall oven and the microwave drawer is a minimum of 2-inches.
- The microwave interior will easily accommodate a 9" x 13" oblong dish or a bag of microwave popcorn.

24" MICROWAVE DRAWER MEASUREMENTS

Figures 1 and 2 contain many Microwave Drawer measurements for reference when planning the drawer’s location.
30" MICROWAVE DRAWER MEASUREMENTS

NORMAL INSTALLATION STEPS

ANTI-TIP BLOCK INSTALLATION INSTRUCTIONS

To reduce the risk of tipping of the drawer, the Anti-Tip block must be properly installed located 14 3/4-inches above the floor on which the Microwave Drawer will sit. The 6-inch Anti-Tip block must be provided by the installer. See Figures 1 and 6 (for 24") or Figures 3, 4 and 6 (for 30"). The Anti-Tip block prevents serious injury that might result from spilled hot liquids.

If the Microwave Drawer is ever moved to a different location, the Anti-Tip block must also be moved and installed. When installed to the wall, make sure that the screws completely penetrate the dry wall and are secured in wood or metal so that the block is totally stable. When fastening, be sure that the screws do not penetrate electrical wiring or plumbing.

Figures 3, 4 and 5 contain many Microwave Drawer measurements for reference when planning the drawer’s location.
DRAWER INSTALLATION

1. Place the drawer adjacent to the wall or cabinet opening. Plug the power supply cord into the electrical outlet.

2. Carefully guide the drawer into the prepared opening. Avoid pinching the cord between the oven and the wall.

3. Slide the drawer all the way until the mounting flange is flush with the face of the cabinet. See Figure 8A.

4. Open the drawer. Using the 4 holes on the drawer as a template, pre drill the cabinet using a 1/16" bit. See Figure 8A.

5. Secure the drawer with the 4 screws supplied. See Figure 8B.

MODEL AND SERIAL NUMBER LOCATION

For models KB-6015K and KB-6002L
The name plate, including model and serial number, is located on the faceplate behind the Microwave Drawer front.

For model KB-6014L
The name plate includes model and serial number. Open the Microwave Drawer fully. The label is slightly beyond the back wall of the microwave cavity facing up from the flat surface.

CARE, CLEANING AND MAINTENANCE

Refer to the Operation Manual for cleaning instructions.

BEFORE YOU CALL FOR SERVICE

Read the BEFORE YOU CALL and operating instruction sections in your Operation Manual. It may save you time and expense. The list includes common occurrences that are not the result of defective workmanship or materials in this range.

Refer to the warranty in your Operation Manual for Sharp’s toll-free service number and address. Please call or write if you have inquiries about your microwave product and/or need to order parts.
To aid in reporting this appliance, please record below the model number and serial number located on the unit. We also suggest you record all the information listed and retain for future reference.

PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY

(a) Do not attempt to operate this oven with the door open since open-door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.

(b) Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.

(c) Do not operate the oven if it is damaged. It is particularly important that the oven door close properly and that there is no damage to the: (1) door (bent), (2) hinges and latches (broken or loosened), (3) door seals and sealing surfaces.

(d) The oven should not be adjusted or repaired by anyone except properly qualified service personnel.
CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand product (the “Product”), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product nor to the additional excluded item(s) set forth below nor to any Product the exterior of which has been damaged or defaced, which has been subjected to misuse, abnormal service or handling, or which has been altered or modified in design or construction.

In order to enforce the rights under this limited warranty, the purchaser should follow the steps set forth below and provide proof of purchase to the servicer.

The limited warranty described herein is in addition to whatever implied warranties may be granted to purchasers by law. ALL IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR USE ARE LIMITED TO THE PERIOD(S) FROM THE DATE OF PURCHASE SET FORTH BELOW. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

Neither the sales personnel of the seller nor any other person is authorized to make any warranties other than those described herein, or to extend the duration of any warranties beyond the time period described above on behalf of Sharp.

The warranties described herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. In no event shall Sharp be liable, or in any way responsible, for any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than an authorized servicer. Nor shall Sharp be liable or in any way responsible for any incident or consequential economic or property damage. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

Your product model number & description: KB-6525P, KB-6524P or Home Use Microwave Drawer. (Be sure to have this information available when you need service for your Product.)

Warranty period for this product: One (1) year parts and labor including in-home service. The warranty period continues for an additional four (4) years, for a total of five (5) years, with respect to the magnetron tube in the Product for parts only; labor and service are not provided free of charge for this additional period.

Additional item(s) excluded from warranty coverage (if any): Non-functional accessories and light bulbs.

Where to obtain service: From a Sharp Authorized Servicer located in the United States. To find the location of the nearest Sharp Authorized Servicer, call Sharp toll free at 1-800-BE-SHARP (1-800-237-4277).

What to do to obtain service: In-home service is provided for one year from date of purchase. In-home service can be arranged by calling 1-800-BE-SHARP. Be sure to have Proof of Purchase available.

TO OBTAIN SUPPLY, ACCESSORY OR PRODUCT INFORMATION, CALL 1-800-BE-SHARP or visit www.sharpusa.com.

SAVE THE PROOF OF PURCHASE AS IT IS NEEDED SHOULD YOUR OVEN EVER REQUIRE WARRANTY SERVICE.

PRODUCT INFORMATION CARD

The Product Information Card should be completed within ten days of purchase and returned. We will keep it on file and help you access the information if needed. This will also enable us to contact you in the unlikely event that any adjustments or modifications are ever required for your Microwave Drawer.
When using the appliance, basic safety precautions should be followed, including the following:

**WARNING** To reduce the risk of burns, electric shock, fire, injury to persons or exposure to excessive microwave energy:

1. Read all instructions before using the appliance.
2. Read and follow the specific “PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY” on page 3.
3. This appliance must be properly grounded. See page 6 for grounding instructions.
4. Install or locate this appliance only in accordance with the provided Installation Manual.
5. Some products such as whole eggs and sealed containers - for example, closed glass jars - are able to explode and should not be heated in the appliance.
6. Use this appliance only for its intended use as described in this manual. Do not use corrosive chemicals or vapors in this appliance. This appliance is specifically designed to heat, cook or dry food. It is not designed for industrial or laboratory use.
7. As with any appliance, close supervision is necessary when used by children.
8. Do not operate this appliance if it has a damaged cord or plug, if it is not working properly or if it has been damaged or dropped.
9. This appliance should be serviced only by qualified service personnel. Contact nearest Sharp Authorized Servicer for examination, repair or adjustment.
10. Do not cover or block any openings on the appliance.
11. Do not store or use this appliance outdoors. Do not use this product near water—for example, near a kitchen sink, in a wet basement, near a swimming pool or similar locations.
12. Do not immerse cord or plug in water.
13. Keep cord away from heated surfaces.
14. Do not climb or sit on the appliance.
15. Be sure that fingers or other objects or materials are not around the appliance opening when the appliance is closed.
16. Do not put fingers or clothes around the drawer guides when the appliance is opened or closed. They could be caught in the guides when the appliance is closed.
17. Be sure that the food and container are shorter than the drawer before closing it. You can refer to the height of the side walls of the drawer.
18. When cleaning appliance sealing surfaces that come together on closing the drawer, use only mild, nonabrasive soaps or detergents applied with a sponge or soft cloth. See cleaning instructions on page 19.
19. To reduce the risk of fire in the appliance cavity:
   a. Do not overcook food. Carefully attend appliance when paper, plastic or other combustible materials are placed inside the appliance to facilitate cooking.
   b. Remove wire twist-ties from paper or plastic bags before placing bag in appliance.
   c. If materials inside the appliance ignite, keep appliance door closed, turn microwave off and shut off power at the fuse or circuit breaker panel.
   d. Do not use the appliance for storage purposes. Do not leave paper products, cooking utensils, or food in the appliance when not in use.
20. Liquids, such as water, coffee or tea are able to be overheated beyond the boiling point without appearing to be boiling due to surface tension of the liquid. Visible bubbling or boiling when the container is removed from the appliance is not always present. THIS COULD RESULT IN VERY HOT LIQUIDS SUDDENLY BOILING OVER WHEN A SPOON OR OTHER UTENSIL IS INSERTED INTO THE LIQUID.

To reduce the risk of injury to persons:

a. Do not overheat the liquid.

b. Stir the liquid both before and halfway through heating it.

c. Do not use straight-sided containers with narrow necks. Use a wide-mouthed container.

d. After heating, allow the container to stand in the appliance at least for 20 seconds before removing the container.

e. Use extreme care when inserting a spoon or other utensil into the container.

21. If the appliance light fails, consult a SHARP AUTHORIZED SERVICER.
ABOUT UNPACKING AND EXAMINING YOUR MICROWAVE DRAWER

1 Remove all packing materials from inside the Microwave Drawer. DO NOT REMOVE THE WAVEGUIDE COVER, which is located on the top of the Microwave Drawer.

2 Remove the feature sticker, if there is one. Check the drawer for any damage, such as misaligned or bent drawer, damaged drawer seals and sealing surfaces, broken or loose drawer guides and dents inside the cavity or on the front side of the drawer. If there is any damage, do not operate the Microwave Drawer and contact your dealer or a SHARP AUTHORIZED SERVICER.

RADIO OR TV INTERFERENCE

Should there be any interference caused by the Microwave Drawer to your radio or TV, check that the Microwave Drawer is on a different electrical circuit, relocate the radio or TV as far away from the drawer as feasible or check position and signal of receiving antenna.

GROUNDING INSTRUCTIONS

This appliance must be grounded. The Microwave Drawer is equipped with a cord having a grounding wire with a grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded in accordance with the National Electrical Code and local codes and ordinances. In the event of an electrical short circuit, grounding reduces risk of electric shock by providing an escape wire for the electric current.

WARNING – Improper use of the grounding plug can result in a risk of electric shock. Do not use an extension cord. If the power supply cord is too short, have a qualified electrician or serviceman install an outlet near the appliance.

If you have any questions about the grounding or electrical instructions, consult a qualified electrician or service person.

ABOUT YOUR MICROWAVE DRAWER

ALWAYS have food in the Microwave Drawer when it is on to absorb the microwave energy.

The vent under the Microwave Drawer must not be blocked. During microwaving, steam may come from the right side of the vent.

When using the Microwave Drawer at power levels below 100%, you may hear the magnetron cycling on and off. It is normal for the exterior of the Microwave Drawer to be warm to the touch when cooking or reheating.

Condensation is a normal part of microwave cooking. Room humidity and the moisture in food will influence the amount of moisture that condenses in the Microwave Drawer. Generally, covered foods will not cause as much condensation as uncovered ones.

The Microwave Drawer is for food preparation only. It should not be used to dry clothes or newspapers.

Your Microwave Drawer is rated 1000 watts by using the IEC Test Procedure. In using recipes or package directions, check food a minute or two before the minimum time and add time accordingly.

When opening or closing the Microwave Drawer quickly, food in the Microwave Drawer may be spilled. To clean, please refer to the Cleaning and Care section on page 19.

A good microwave cookbook is a valuable asset. Check it for microwave cooking principles, techniques, hints and recipes. See page 21 for ordering the Sharp Carousel Microwave Cookbook.

ABOUT MICROWAVE COOKING

• Arrange food carefully. Place thickest areas towards outside of dish.

• Watch cooking time. Cook for the shortest amount of time indicated and add more as needed. Food severely overcooked can smoke or ignite.

• Cover foods while cooking. Check recipe or cookbook for suggestions: paper towels, wax paper, microwave plastic wrap or a lid. Covers prevent spattering and help foods to cook evenly.

• Shield with small flat pieces of aluminum foil any thin areas of meat or poultry to prevent overcooking before dense, thick areas are cooked thoroughly.

• Stir foods from outside to center of dish once or twice during cooking, if possible.
• Turn foods over once during microwaving to speed cooking of such foods as chicken and hamburgers. Large items like roasts must be turned over at least once.
• Rearrange foods such as meatballs halfway through cooking both from top to bottom and from right to left.
• Add standing time. Remove food from Microwave Drawer and stir, if possible. Cover for standing time which allows the food to finish cooking without overcooking.
• Check for doneness. Look for signs indicating that cooking temperatures have been reached.
  Doneness signs include:
  - Food steams throughout, not just at edge.
  - Center bottom of dish is very hot to the touch.
  - Poultry thigh joints move easily.
  - Meat and poultry show no pinkness.
  - Fish is opaque and flakes easily with a fork.

ABOUT UTENSILS AND COVERINGS

It is not necessary to buy all new cookware. Many pieces already in your kitchen can be used successfully in your new Microwave Drawer. Make sure the utensil does not touch the interior walls during cooking.

Use these utensils for safe microwave cooking and reheating:
• glass ceramic (Pyroceram®), such as Corningware®.
• heat-resistant glass (Pyrex®)
• microwave-safe plastics
• microwave-safe paper plates
• microwave-safe pottery, stoneware and porcelain
• browning dish (Do not exceed recommended preheating time. Follow manufacturer’s directions.)

These items can be used for short time reheating of foods that have little fat or sugar in them:
• wood, straw, wicker

DO NOT USE
• metal pans and bakeware
• dishes with metallic trim
• non-heat-resistant glass
• non-microwave-safe plastics (margarine tubs)
• recycled paper products
• brown paper bags
• food storage bags
• metal twist-ties

Should you wish to check if a dish is safe for microwaving, place the empty dish in the oven and microwave on HIGH for 30 seconds. A dish which becomes very hot should not be used.

The following coverings are ideal:
• Paper towels are good for covering foods for reheating and absorbing fat while cooking bacon.
• Wax paper can be used for cooking and reheating.
• Plastic wrap that is specially marked for microwave use can be used for cooking and reheating. DO NOT allow plastic wrap to touch food. Vent so steam can escape.
• Lids that are microwave-safe are a good choice because heat is kept near the food to hasten cooking.
• Oven cooking bags are good for large meats or foods that need tenderizing. DO NOT use metal twist ties. Remember to slit bag so steam can escape.

How to use aluminum foil in your Microwave Drawer:
• Small flat pieces of aluminum foil placed smoothly on the food can be used to shield areas that are either defrosting or cooking too quickly.
• Foil should not come closer than one inch to any surface of the Microwave Drawer.

Should you have questions about utensils or coverings, check a good microwave cookbook or follow recipe suggestions.

ACCESSORIES There are many microwave accessories available for purchase. Evaluate carefully before you purchase so that they meet your needs. A microwave-safe thermometer will assist you in determining correct doneness and assure you that foods have been cooked to safe temperatures. Sharp is not responsible for any damage to the Microwave Drawer when accessories are used.

ABOUT CHILDREN AND THE MICROWAVE

Children below the age of 7 should use the Microwave Drawer with a supervising person very near to them. Between the ages of 7 and 12, the supervising person should be in the same room. The child must be able to reach the Microwave Drawer comfortably.

At no time should anyone be allowed to lean or swing on the Microwave Drawer.

Children should be taught all safety precautions: use potholders, remove coverings carefully, pay special attention to packages that crisp food because they may be extra hot.

Don’t assume that because a child has mastered one cooking skill he/she can cook everything.

Children need to learn that the Microwave Drawer is not a toy. See page 17 for Control Lock feature.
ABOUT SAFETY

- Check foods to see that they are cooked to the United States Department of Agriculture’s recommended temperatures.

<table>
<thead>
<tr>
<th>Temperature</th>
<th>Food Types</th>
</tr>
</thead>
<tbody>
<tr>
<td>145°F</td>
<td>Fish</td>
</tr>
<tr>
<td>160°F</td>
<td>Pork, ground beef/veal/lamb, egg dishes</td>
</tr>
<tr>
<td>165°F</td>
<td>For leftover, ready-to-reheat refrigerated, and deli and carry-out “fresh” food. Whole, pieces and ground turkey/chicken/duck.</td>
</tr>
</tbody>
</table>

To test for doneness, insert a meat thermometer in a thick or dense area away from fat or bone. NEVER leave the thermometer in the food during cooking, unless it is approved for microwave use.

- ALWAYS use potholders to prevent burns when handling utensils that are in contact with hot food. Enough heat from the food can transfer through utensils to cause skin burns.

- Avoid steam burns by directing steam away from the face and hands. Slowly lift the farthest edge of a dish’s covering and carefully open popcorn and oven cooking bags away from the face.

- Stay near the Microwave Drawer while it’s in use and check cooking progress frequently so that there is no chance of overcooking food.

- NEVER use the Microwave Drawer for storing cookbooks or other items.

- Select, store and handle food carefully to preserve its high quality and minimize the spread of foodborne bacteria.

- Keep waveguide cover clean. Food residue can cause arcing and/or fires. See page 19.

BEFORE OPERATING

Before operating your new Microwave Drawer make sure you read and understand this operation manual completely.

• Before the Microwave Drawer can be used, follow these steps:

1. Plug in the Microwave Drawer. **ENJOY YOUR MICRO-WAVE TOUCH CLEAR** and **TOUCH CLOCK** will appear.

2. Touch the **Stop/Clear** pad. **:** will appear.

3. Set clock.

TO SET THE CLOCK

1. Touch **Timer/Clock** pad and number [1].

2. Touch number pads for correct time of day and touch **Timer/Clock** pad again.

This is a 12 hour clock. If you attempt to enter an incorrect clock time, **ERROR** will appear in the display. Touch the **Stop/Clear** pad and re-enter the time.

• If the electrical power supply to your Microwave Drawer should be interrupted, the display will intermittently show **ENJOY YOUR MICRO-WAVE TOUCH CLEAR** after the power is reinstated. If this occurs during cooking, the program will be erased. The time of day will also be erased. Simply touch **Stop/Clear** pad and reset the clock for the correct time of day.

Note:

• The Microwave Drawer can be programmed with the drawer open except for **START/Minute Plus**.

TIMER

1. Touch **Timer/Clock** pad and number [1].

2. Enter time.

3. Touch **Timer/Clock** pad again.

To cancel timer, touch **Stop/Clear**.

STOP/CLEAR

Touch the **Stop/Clear** pad to:

1. Erase if you make a mistake during programming.

2. Cancel timer.

3. Stop the Microwave Drawer temporarily during timed cooking.

4. Return the time of day to the display.

5. Cancel a program during cooking, touch twice for timed cooking.

OPEN OR CLOSE MICROWAVE DRAWER

To open the Microwave Drawer, pull the drawer handle a little so that the drawer will open automatically. To close the Microwave Drawer, push the drawer with light pressure so that the drawer will close automatically. In case the Microwave Drawer is stopped in the middle, open or close the drawer manually to full open or close position by gently pulling or pushing with even pressure near the middle of the drawer handle.

If you wish to use key operation to open/close the Microwave Drawer, press the OPEN or CLOSE pad on the control panel to open or close the Microwave Drawer.
TIME COOKING
Your Microwave Drawer can be programmed for 99 minutes 99 seconds (99.99). Always enter the seconds after the minutes, even if they are both zeros.

• Suppose you want to cook for 5 minutes at 100%.

1 Enter cooking time 5 0 0. 5.00 TOUCH START
2 To cook at 100% power (High), touch START/Minute Plus pad.

TO SET POWER LEVEL
There are eleven preset power levels.

Using lower power levels increases the cooking time, which is recommended for foods such as cheese, milk and long slow cooking of meats. Consult a microwave cookbook or recipes for specific recommendations.

• Suppose you want to defrost for 5 minutes at 30%.

1 Enter defrost time 5 0 0. 5.00
2 Touch Power Level pad 8 times.
3 Touch START/Minute Plus pad.

<table>

SENSOR SETTINGS
Sharp’s Sensor is a semi-conductor device that detects the vapor (moisture and humidity) emitted from the food as it heats. The sensor adjusts the cooking times and power levels for various foods and quantities.

USING SENSOR SETTINGS:
1 After the Microwave Drawer is plugged in, wait 2 minutes before using any sensor setting.
2 Be sure the exterior of the cooking container and the interior of the Microwave Drawer are dry. Wipe off any moisture with a dry cloth or paper towel.
3 The sensor works with foods at normal storage temperature. For example, popcorn would be at room temperature.
4 Any sensor selection can be programmed with More or Less Time Adjustment. See page 17.
5 More or less food than the quantity listed in the charts should be cooked following the guidelines in any microwave cookbook.
6 During the first part of sensor use, the food name will appear on the display. Do not open the Microwave Drawer or touch Stop/Clear during this part of the cycle. The measurement of vapor will be interrupted. If this occurs, an error message will appear. To continue cooking, touch the Stop/Clear pad and cook manually.

When the sensor detects the vapor emitted from the food, the remainder of cooking/reheating time will appear. The Microwave Drawer may be opened when the remaining time appears on the display. At this time, you may stir or season food, as desired.

7 If the sensor does not detect vapor properly when popping popcorn, the oven will turn off, and the time of day will be displayed. If the sensor does not detect vapor properly when cooking other foods, \[ ERROR \] will be displayed, and the microwave will turn off.
8 Check food temperature after cooking. If additional time is needed, continue to cook manually.
9 Each food has a cooking hint. Touch the Custom Help pad when the HELP indicator is lighted in the display.
**COVERING FOODS:**

Some foods work best when covered. Use the cover recommended in the charts for these foods. You may refer to the hints by touching the Custom Help pad. See page 18.

1. Casserole lid.
2. Plastic wrap: Use plastic wrap recommended for microwave cooking. Cover dish loosely; allow approximately 1/2 inch to remain uncovered to allow steam to escape. Plastic wrap should not touch food.
3. Wax paper: Cover dish completely; fold excess wrap under dish to secure. If dish is wider than paper, overlap two pieces at least one inch to cover.

Be careful when removing any covering to allow steam to escape away from you.

**MICROWAVE DRAWER COOKING**

**DEFROST**

Use this feature to defrost the foods shown in the DEFROST CHART below.

1. Touch **Defrost** pad.

3. Enter weight by touching number pads. **1.0 Lb**

4. Touch **START/Minute Plus** pad.

The oven will stop so that the food can be checked.

5. After the first stage, open the Microwave Drawer. Turn steak over and shield any warm portions. Close the Microwave Drawer. Touch **START/Minute Plus** pad.

6. After the second stage, open the Microwave Drawer. Shield any warm portions. Close the Microwave Drawer. Touch **START/Minute Plus** pad.

7. After defrost cycle ends, cover and let stand as indicated in the chart below.

**Note:**
- Defrost can be programmed with More or Less Time Adjustment. See page 17.
- To defrost other foods or foods above or below the weights allowed on the DEFROST CHART, see MANUAL DEFROST below.
- Check foods when oven signals. After final stage, small sections may still be icy. Let stand to continue thawing. Do not cook until all ice crystals are thawed.
- Shielding prevents cooking from occurring before the center of the food is defrosted. Use small smooth strips of aluminum foil to cover edges and thinner sections of the food.

**DEFROST CHART**

<table>
<thead>
<tr>
<th>FOOD</th>
<th>AMOUNT</th>
<th>PROCEDURE</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Ground meat</td>
<td>.5 - 2.0 lb</td>
<td>Remove any thawed pieces after each audible signal. Let stand, covered, for 5 to 10 minutes.</td>

<td>Soup</td>
<td>1 - 6 cups</td>
<td>After each audible signal, break apart and remove any defrosted part. At end, stir well and let stand, covered, for 5 to 10 minutes.</td>
</tr>
</tbody>
</table>

**MANUAL DEFROST**

If the food that you wish to defrost is not listed on the DEFROST CHART or is above or below the limits in the AMOUNT column on the DEFROST CHART, you need to defrost manually.

You can defrost any frozen food, either raw or previously cooked, by using Power Level at 30%. Follow the exact 3-step procedure found under TO SET POWER LEVEL on page 11. Estimate defrosting time and press Power Level pad eight times for 30% power.

For either raw or previously cooked frozen food the rule of thumb is approximately 4 minutes per pound. For example, defrost 4 minutes for 1 pound of frozen spaghetti sauce.

Always stop the oven periodically to remove or separate the portions that are defrosted. If food is not defrosted at the end of the estimated defrosting time, program the oven in 1 minute increments on Power Level 30% until totally defrosted.

When using plastic containers from the freezer, defrost only long enough to remove from the plastic in order to place in a microwave-safe dish.
REHEAT

Reheat automatically computes the correct warming time and microwave power level for foods shown in the chart below.

1 Touch **Reheat** pad once.

   **FOOD** | **AMOUNT** | **PROCEDURE**
   1 Fresh rolls/muffins | 1 - 8 pcs | Use this pad to warm rolls, muffins, biscuits, bagels etc. Large items should be considered as 2 or 3 regular size. Arrange on plate; cover with paper towel. For refrigerated rolls or muffins, it may be necessary to double the entered amount to ensure the proper serving temperature. For example, enter quantity of 2 for 1 refrigerated muffin.

2 Frozen rolls/muffins | 1 - 8 pcs | Use this pad to warm frozen rolls, muffins, biscuits, bagels etc. Large items should be considered as 2 or 3 regular size. Arrange on plate; cover with paper towel.

Note:
- Reheat can be programmed with More or Less Time Adjustment. See page 17.
- To reheat other foods or foods above or below the quantity allowed on the REHEAT CHART, heat manually.

BEVERAGE CENTER

Beverage Center enables you to reheat coffee or tea to restore to a more suitable drinking temperature or to make instant coffee or tea.

1 Touch **Beverage Center** pad once.

   **FOOD** | **AMOUNT** | **PROCEDURE**
   1 Reheat beverage | .5 - 2.0 cups | This setting for good for restoring cooled beverage to a better drinking temperature. Touch number 1 pad for a 0.5 cup increase per touch. Stir after heating.

2 Hot water | 1 - 6 cups | Use this setting for heating COLD TAP WATER to a temperature somewhat below the boiling point to make instant coffee or tea. Touch number 2 pad for 1 cup increase per touch. Stir liquid briskly before and after heating to avoid "eruption".

Note:
- Beverage Center can be programmed with More or Less Time Adjustment. See page 17.
- Should you attempt to enter more or less than the allowed amount, an error message will appear in the display.

**REHEAT CHART**

**BEVERAGE CENTER CHART**
MICROWAVE DRAWER COOKING

MELT/SOFTEN/WARM

Melt, Soften and Warm automatically compute the correct heating time and microwave power level for melting, softening and warming foods shown in the chart below.

1 Touch Melt pad once. See Label. Select desired food by touching number pad. Ex: Touch 2 for chocolate.

2 Repeat touching same number pad to select quantity. Ex: Touch 2 two more times for 1 square.

4 Touch START/Minute Plus pad.

**Note:**
- Melt, Soften and Warm can be programmed with More or Less Time Adjustment. See page 17.
- To melt, soften or warm other food or foods above or below the quantity allowed on the MELT/SOFTEN/WARM CHART, use manual operation.

KEEP WARM

Keep Warm allows you to keep food warm up to 30 minutes.

DIRECT USE

1 Touch Keep Warm pad. Enter TIME UP TO 30 MINUTES

2 Enter desired time by touching the number pads. To enter 30 minutes, touch 3000 TOUCH START

3 Touch START/Minute Plus pad.

The oven will start. The display will show 30.00 and count down. KEEP WARM will be displayed intermittently during the count down.

WITH MANUAL COOKING

1 Enter desired cooking time and power level.

2 Touch Keep Warm pad.

3 Enter desired warming time up to 30 minutes.

4 Touch START/Minute Plus pad.

The operation will start. When the cooking time is complete, a long tone will sound and Keep Warm will start. The display will count down. KEEP WARM will be displayed intermittently during the count down.

Note:
• If you attempt to enter more than 30 minutes for Keep Warm, an error message will appear in the display.
• Keep Warm cannot be programmed with Sensor Popcorn, Sensor Reheat, Sensor Cook, Defrost or Reheat.

MULTIPLE SEQUENCE COOKING

Your Microwave Drawer can be programmed for up to 4 automatic cooking sequences, switching from one power level setting to another automatically.

Sometimes cooking directions tell you to start on one power level and then change to a different power level. Your Microwave Drawer can do this automatically.

1 First enter cooking time. Then touch Power Level pad once for 100% cooking or repeat touching Power Level pad for a lower power level.

2 Enter second cooking time. Repeat touching Power Level pad for desired level. You can follow this procedure up to 4 times. TOUCH START

3 Touch START/Minute Plus pad.

Note:
• If Power Level pad is touched once, HIGH will be displayed.
• If 100% is selected as the final sequence, it is not necessary to touch the Power Level pad.

• If you wish to know power level during cooking, simply touch the Power Level pad. As long as your finger is touching the Power Level pad, the power level will be displayed.
• Keep Warm can be programmed even if 4 cooking sequences have been set.

HELP

Each setting of Sensor Reheat, Sensor Cook, Sensor Popcorn, Keep Warm, Reheat and Defrost has a cooking hint. If you wish to check, touch Custom Help whenever HELP is lighted in the Interactive Display for these and other manual operation hints.

MINUTE PLUS™

Minute Plus allows you to cook for a minute at 100% by simply touching the Minute Plus pad. You can also extend cooking time in multiples of 1 minute by repeatedly touching the Minute Plus pad during manual cooking.

Note:
• To use Minute Plus, touch pad within 3 minutes after cooking, closing the drawer or touching the Stop/Clear pad.
• Minute Plus cannot be used with Sensor settings, Reheat or Defrost.

MORE OR LESS TIME ADJUSTMENT

Should you discover that you like any of the Sensor, Reheat or Defrost settings slightly more done, touch the Power Level pad once after touching your selection. The display will show MORE.

For slightly less done, touch the Power Level pad twice after touching your selection. The display will show LESS.

CONTROL LOCK

The Control Lock prevents unwanted drawer operation such as by small children. The Microwave Drawer can be set so that the control panel and the automatic door mechanism are deactivated or locked.

TO LOCK

Touch Control Lock pad and hold for 3 seconds. The display shows LOCK ON.

TO UNLOCK

Touch Control Lock pad and hold for 3 seconds. The display shows LOCK OFF.

The Control Lock is canceled when the electrical power supply to your oven is interrupted. Set the Control Lock again when power to the oven is restored.
OTHER FEATURES

SETUP/CUSTOM HELP
If the electrical power supply to your Microwave Drawer should be interrupted, the display will intermittently show after the power is reinstated. If this occurs, the Setup/Customer Help option you input will be erased. Simply touch Stop/Clear pad and reset.

AUDIBLE SIGNAL ELIMINATION
At the end of timed cook, beeps will sound. The audible signal can be turned off if you prefer quiet operation.

TO TURN SOUND OFF
1. Touch Setup/Customer Help pad. TOUCH AGAIN
2. Touch Setup/Customer Help pad again. TOUCH START
3. Touch START/Minute Plus pad. The display shows SOUND OFF.

TO RESTORE SOUND
1. Touch Setup/Customer Help pad. TOUCH AGAIN
2. Touch Setup/Customer Help pad again. TOUCH START
3. Touch START/Minute Plus pad. The display shows SOUND ON.

END OF COOKING REMINDER
At end of timed cooking, the microwave will signal every 10 seconds for the first minute; then every 3 minutes until Stop/Clear pad is touched, up to one hour.

TO TURN REMINDER OFF
1. Touch Setup/Customer Help pad three times. The display shows REMIND SIGNAL OFF. TOUCH START
2. Touch START/Minute Plus pad. The display shows REMIND SIGNAL OFF.

TO TURN REMINDER SIGNAL ON
1. Touch Setup/Customer Help pad three times. The display shows REMIND SIGNAL ON. TOUCH START
2. Touch START/Minute Plus pad. The display shows REMIND SIGNAL ON.

AUTO START
If you wish to program the Microwave Drawer to begin cooking automatically at a designated time of day, follow this procedure.

1. Touch Setup/Customer Help pad 4 times. The display shows AUTO START TOUCH START
2. Touch START/Minute Plus pad.

3. Enter start time: TOUCH CLOCK
4. Touch Timer/Clock pad. ENTER COOKING TIME
5. Touch the number pads to enter cooking time. TOUCH START OR TOUCH POWER LEVEL
Touch Power Level pad repeatedly until the desired power level is reached. TOUCH START
6. Touch START/Minute Plus pad.

DEMONSTRATION MODE
TO SELECT DEMO MODE
1. Touch Setup/Customer Help pad five times. The display shows DEMO ON? HOLD START 3 SEC.
2. Hold START/Minute Plus pad for 3 seconds. The display shows DEMO ON.

TO CANCEL DEMO MODE
1. Hold Setup/Customer Help pad five times. The display shows DEMO OFF? TOUCH START
2. Touch START/Minute Plus pad. The display shows DEMO OFF.

Note:
• Microwave Drawer doesn’t heat in Demo Mode.
• Display counts down quickly.

SLEEP MODE
The backlight of the display will automatically turn off after 15 minutes if the unit has not been in operation. The information in the display will remain, but the display will not remain lighted. The display will not go into the Sleep Mode during cooking or while the Demo Mode is set.

If the display is “sleeping”, simply touch the control panel or open/close the door to turn the back light on. The Sleep Mode feature can be deactivated, if desired.

TO TURN SLEEP MODE OFF
1. Touch Setup/Customer Help pad 6 times. The display shows SLEEP MODE OFF.
2. Touch START/Minute Plus pad. The display shows SLEEP MODE OFF.

TO TURN SLEEP MODE BACK ON
1. Touch Setup/Customer Help pad 6 times. The display shows SLEEP MODE ON.
2. Touch START/Minute Plus pad. The display shows SLEEP MODE ON.
CLEANING AND CARE

EXTERIOR
The outside surface is precoated metal and plastic. Clean the outside with mild soap and water; rinse and dry with a soft cloth. Do not use any type of household or abrasive cleaner.

STAINLESS STEEL SURFACE
(SELECT MODELS)
The exterior should be wiped often with a soft damp cloth and polished with a soft dry cloth to maintain its beauty. There are also a variety of products designed especially for cleaning and shining the stainless exterior of the oven. We recommend that the cleaner be applied to a soft cloth and then carefully used on the stainless exterior rather than sprayed directly on it. Follow package directions carefully.

FRONT SIDE OF THE DRAWER
Wipe the window on both sides with a soft damp cloth to remove any spills or spatters. Metal parts will be easier to maintain if wiped frequently with a soft damp cloth. Avoid the use of spray and other harsh cleaners as they may stain, streak or dull the drawer surface.

TOUCH CONTROL PANEL
If desired, the touch pads may be deactivated before cleaning. See the Control Lock information on page 16 of this manual. Wipe the panel with a cloth dampened slightly with water only. Dry with a soft cloth. Do not scrub or use any sort of chemical cleaners. Close drawer and follow directions on page 16 for turning Control Lock off. Touch Stop/Clear.

INTERIOR
Before cleaning the the Microwave Drawer, press and hold the Control Lock button for 3 seconds to lock the control pad and the automatic door mechanism. The drawer can be locked in either the open or closed position. The display will show LOCK ON. This will prevent the drawer from accidentally opening or closing during cleaning. After cleaning, press and hold the Control Lock button for 3 seconds to turn the lock off. The display will show LOCK OFF.

Cleaning is easy because no heat is generated to the interior surfaces; therefore, there is no baking and setting of spills or spattering. To clean the interior surfaces, including drawer sealing surfaces, wipe with a soft damp cloth. DO NOT USE ABRASIVE OR HARSH CLEANERS OR SCOURING PADS. For heavier soil, use mild soap; wipe clean with a soft damp cloth. Do not use any chemical oven cleaners.

MICROWAVE DRAWER GUIDES
Remove the food crumbs from the Microwave Drawer guides. Wipe with a soft dry cloth in order to keep the Microwave Drawer opening and closing smoothly.

WAVEGUIDE COVER
ATTENTION The waveguide cover, located on the inside top of the Microwave Drawer area, is made from mica, so it requires special care. Keep the waveguide cover clean to assure good microwave performance. Carefully wipe with a soft damp cloth any food spatters from the surface of the cover immediately after they occur. Built-up splashes may overheat and cause smoke or possibly catch fire. Do not remove the waveguide cover.

ODOR REMOVAL
Occasionally, a cooking odor may remain in the Microwave Drawer. To remove odor, combine 1 cup water, grated peel and juice of one lemon and several whole cloves in a 2-cup glass microwave-safe measuring cup. Boil for several minutes using 100% power. Leave in the Microwave Drawer until water cools. Wipe interior with a soft cloth.
Please check the following before calling for service. It may save you time and expense.

## MICROWAVE DRAWER

### KEEP WARM
Micro Warm allows you to keep food warm up to 30 minutes.

**Direct Use**

1. Touch Keep Warm pad. 

2. Enter desired time by touching the number pads. To enter 30 minutes, touch **30:00**. 

3. Touch START/Minute Plus pad.

**With Manual Cooking**

1. Enter desired cooking time and power level. 

2. Touch Keep Warm pad. 

3. Enter desired warming time up to 30 minutes. 

4. Touch START/Minute Plus pad.

### MELT / SOFTEN / WARM
Use these features to melt or soften the foods shown on the Menu Label.

1. Touch Melt pad once. 

2. See Menu Label. Select desired food by touching the number pad. 
   Ex: Touch **2** for chocolate. 

3. Repeat touching same number pad to select quantity. Ex: Touch **2** two more times for 1 square. 

4. Touch START/Minute Plus pad.

## OTHER FEATURES

### CONTROL LOCK
The Control Lock prevents unwanted oven/drawer operation such as by small children. The Microwave Drawer can be set so that the control panel is deactivated or locked.

**To Lock**

Touch Control Lock pad and hold for 3 seconds.

**To Unlock**

Touch Control Lock pad and hold for 3 seconds.

### CUSTOM HELP
Check operation manual for specific details.

Touch Setup/Custom Help pad.

- 2 times for Sound Off/On. 
- 3 times for End of Cooking Reminder. 
- 4 times for Auto Start. 
- 5 times for Demonstration Mode. 
- 6 times for Sleep Mode.
For more complete information and safety precautions, refer to your Operation Manual.

### MICROWAVE DRAWER

#### SET CLOCK

1. Touch Timer/Clock pad and number 2.
2. Touch number pads for correct time of day and touch Timer/Clock pad again.

If the electrical power supply to your range should be interrupted, the display will intermittently show:

- **ENJOY YOUR MICROWAVE**
- **AND TOUCH CLOCK**

#### TIME COOKING

**High Power Cooking**

1. Enter cooking time by touching number pads. (Ex: 5 minutes)
2. Touch START/Minute Plus pad.

**Variable Power Cooking**

1. After step 1 above, touch Power Level pad until desired power level is in the display.
2. Touch START/Minute Plus pad.

#### SENSOR COOK

Sensor Cook automatically computes the correct time and power level to cook foods on the Menu Label perfectly.

1. Touch Sensor Cook pad once.
2. See Menu Label. Select desired food by touching number pad. Ex: Touch 5 for baked potatoes.
3. Touch START/Minute Plus pad.

#### MINUTE PLUS

Touch START/Minute Plus for one minute at 100% microwave power or to add a minute during manual cooking. Continue to touch for additional minutes.

#### SENSOR POPCORN/SENSOR REHEAT

Touch Sensor Popcorn or Sensor Reheat and START/Minute Plus pad.

#### REHEAT

Reheat automatically computes the correct warming time and microwave power level for foods shown on the Menu Label.

1. Touch Reheat pad once.
2. See Menu Label. Select desired food by touching the number pad. Ex: Touch 2 for frozen rolls or muffins.
3. Touch the number pad to select quantity. Ex: Touch 2 for 2 rolls or muffins.
4. Touch START/Minute Plus pad.

#### DEFROST

Use this feature to defrost the foods shown on the Menu Label.

1. Touch Defrost pad.
2. See Menu Label. Select desired food by touching the number pad. Ex: Touch 2 for steaks/chops.
3. Enter weight by touching number pads.
4. Touch START/Minute Plus pad.
5. Microwave will stop to allow food to be turned over, shielded and/or removed. Close the Microwave Drawer. Touch START/Minute Plus pad.

#### TIMER

1. Touch Timer/Clock pad and number 1.
2. Enter time.
3. Touch Timer/Clock pad again.

To cancel timer, touch Stop/Clear.
