Congratulations on your purchase of your Hammaka Pillow Hammock! Before you Climb In and Hang Out, follow these instructions to ensure your safety and maximize your comfort. The Weave Hammock is designed to hold up to 450lbs., and can be hung anywhere there are two load bearing vertical beams capable of supporting that weight.

HANGING YOUR HAMMAKA PILLOW HAMMOCK

1. Choose a hanging area and the anchor points from which to mount your hammock. Hanging points should be approximately 12-15 feet apart and must include two load bearing vertical beams, such as trees, stud lumber from an existing structure, a professionally-mounted wooden post or a Hammaka Hammock Stand
2. You should hang the hammock approximately four feet above the ground (higher if needed for hammock clearance above the ground).
3. Hang your Hammaka Pillow Hammock on the hardware. If the anchor points are too far apart, it may be necessary to attach an additional piece of chain (included) to each of the hammock's O rings, extending the reach of the hammock. It may be necessary to purchase 2 screw hooks from your local hardware store depending on where you want to hang the hammock.
4. Climb In...Hang Out

CAUTION!

DO NOT JUMP OR BOUNCE ON THE HAMMAKA PILLOW HAMMOCK; DOING SO MAY CAUSE SERIOUS INJURY OR DEATH!

The Hammaka Pillow Hammock's maximum weight capacity is 450 lbs. Do not exceed maximum weight capacity. Inspect hooks, and hardware before each use for rust or loosening that makes this product unsafe to use. If the functionality of the hardware has been compromised in any way do not use this product as doing so may cause serious injury or death. It may be necessary to tighten the hardware each time before using the product due to hot or cold weather conditions. Inspect the overall condition of this product before each use. Children should not use the Pillow Hammock without adult supervision. Do not hang your hammock more than eighteen inches above the ground. Make sure there are no sharp objects or harmful debris below where you hang your hammock.

WARRANTY AND CARE INSTRUCTIONS **Two year warranty.** Register online at www.hammaka.com

For maximum life of this product Hammaka recommends putting the item indoors when you are located in extreme weather conditions. Check all connections to make sure they are secure each time before and periodically while using the product. Check that the hardware has not rusted. Hammaka recommends using a rust inhibitor available at your local hardware store to prolong the life of the hardware when leaving it outdoors.

Clean with mild soap and warm water, scrubbing when necessary. Extend the use and life of your Pillow Hammock by purchasing the All-weather Hammock Cover from Hammaka.
