

CANOPY INSTALLATION INSTRUCTIONS

Attentions for lamp installation:

1. Please read the user manual carefully before the installation.
2. Please hire the professional electrician to install the lamp.
3. The load-bearing of the customer's ceiling must be over 3 times of the light weight.
4. The power must be cut off until the whole lamp is installed well.
5. To avoid getting an electric shock and cause the unnecessary hurt, please cut off the power when cleaning the lamp.

Assembly and Installation Steps

1

1: Lock together

2

2: Lock together

3

3: Connect all white wires(-) from the arm together, and connect all black wires(+) from the arm together. Do not mix the black and white wires. There are two same main wires, they are thicker than the black and white wires. Connect black wires of the arms together with one of the main wire. Connect white wires of the arms together with the other main wire. The wires connection is finished.

4

4: Used two screws lock on the ceiling tightly to fix the light.
