STEP 1 Estimated Time: 15 - 25 minutes

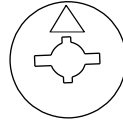

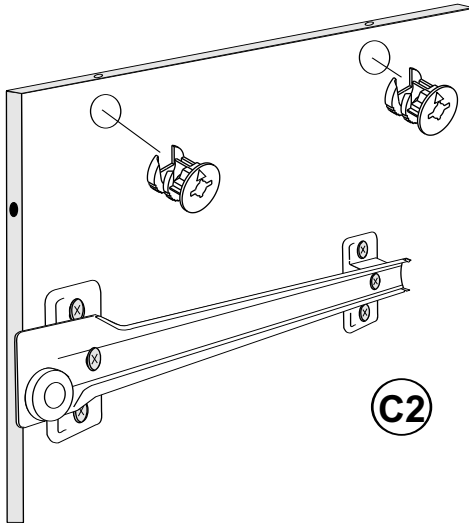

1a Attach T-spacers to left and right sides and to both sides of the center divider using drawer slide screws

1b Then, attach metal cabinet slides to T-spacers using drawer slide screws

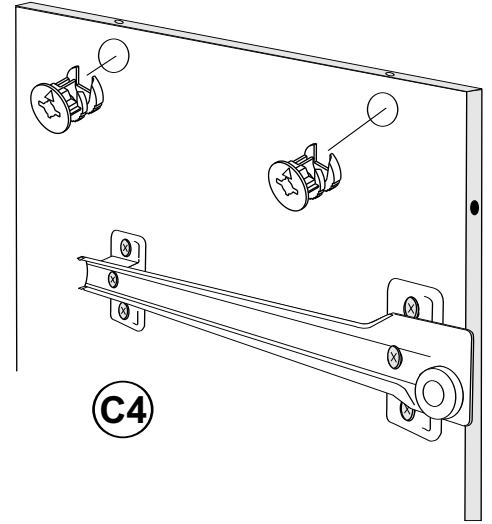

STEP 2 Estimated Time: 1 minute

Insert cams into holes on the top of each side

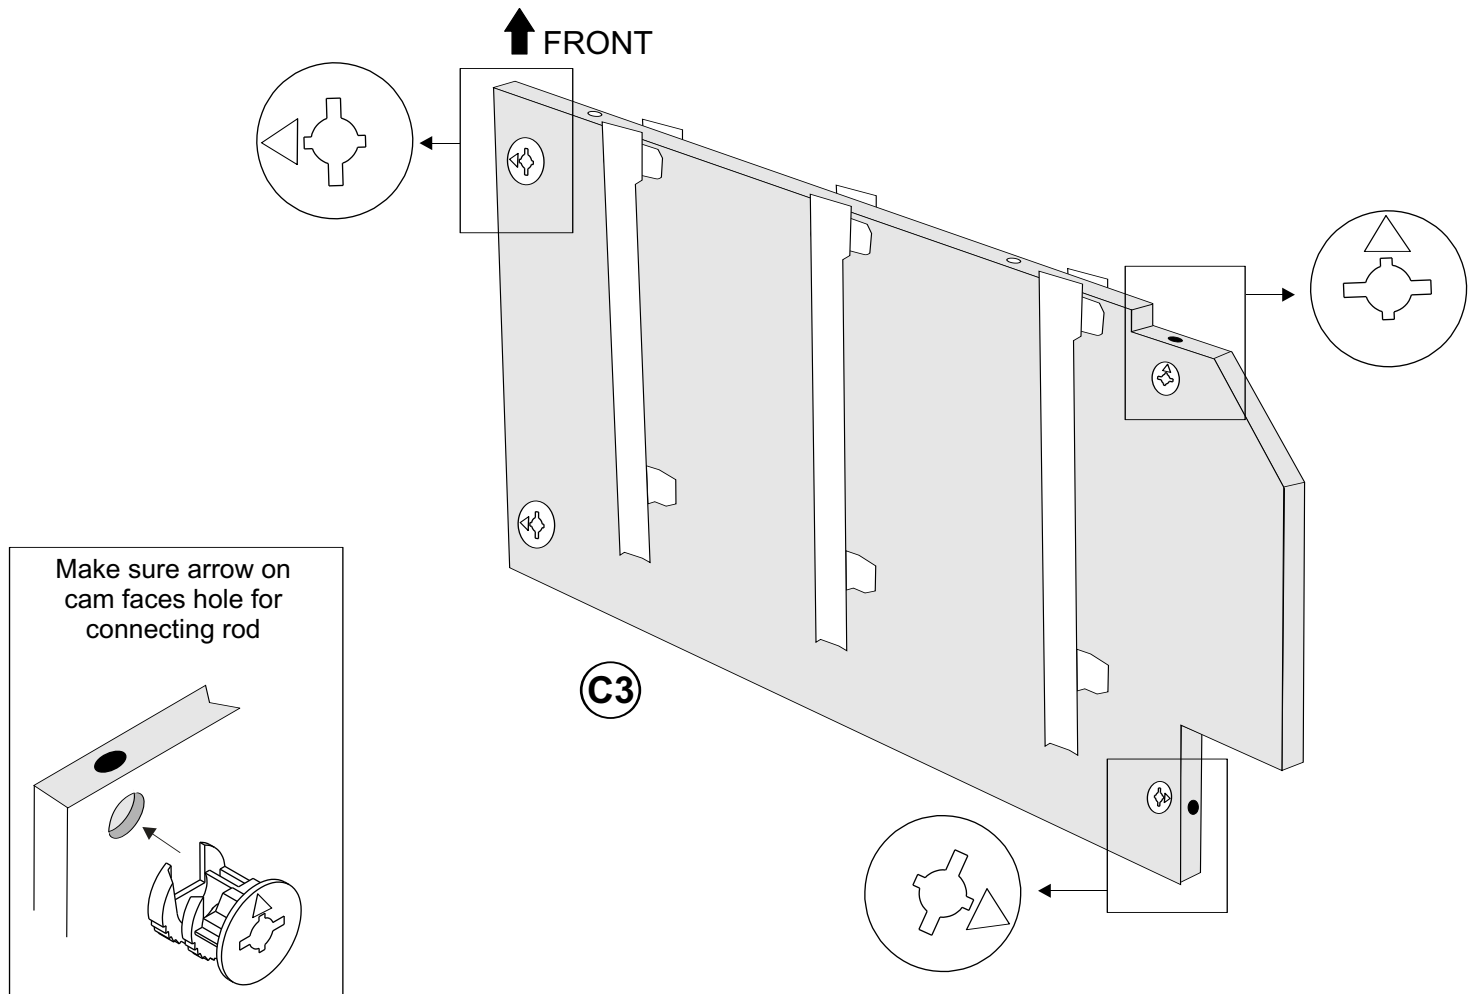

Make sure arrow
on cam faces top

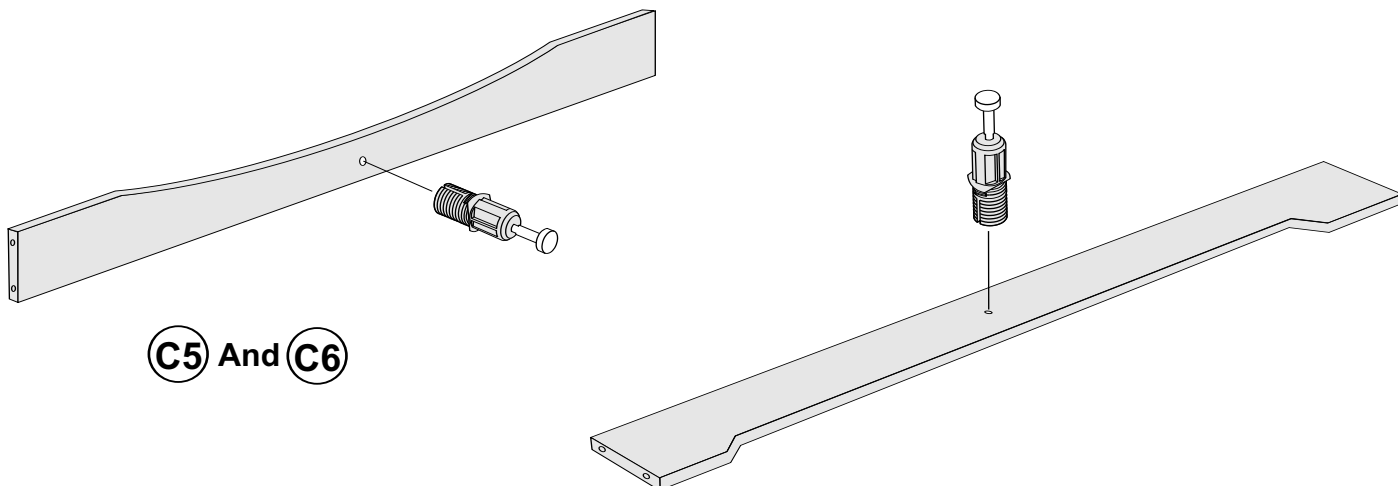

STEP 3 Estimated Time: 1 minute

On the center divider, insert cams where shown

STEP 4 Estimated Time: 1 minute

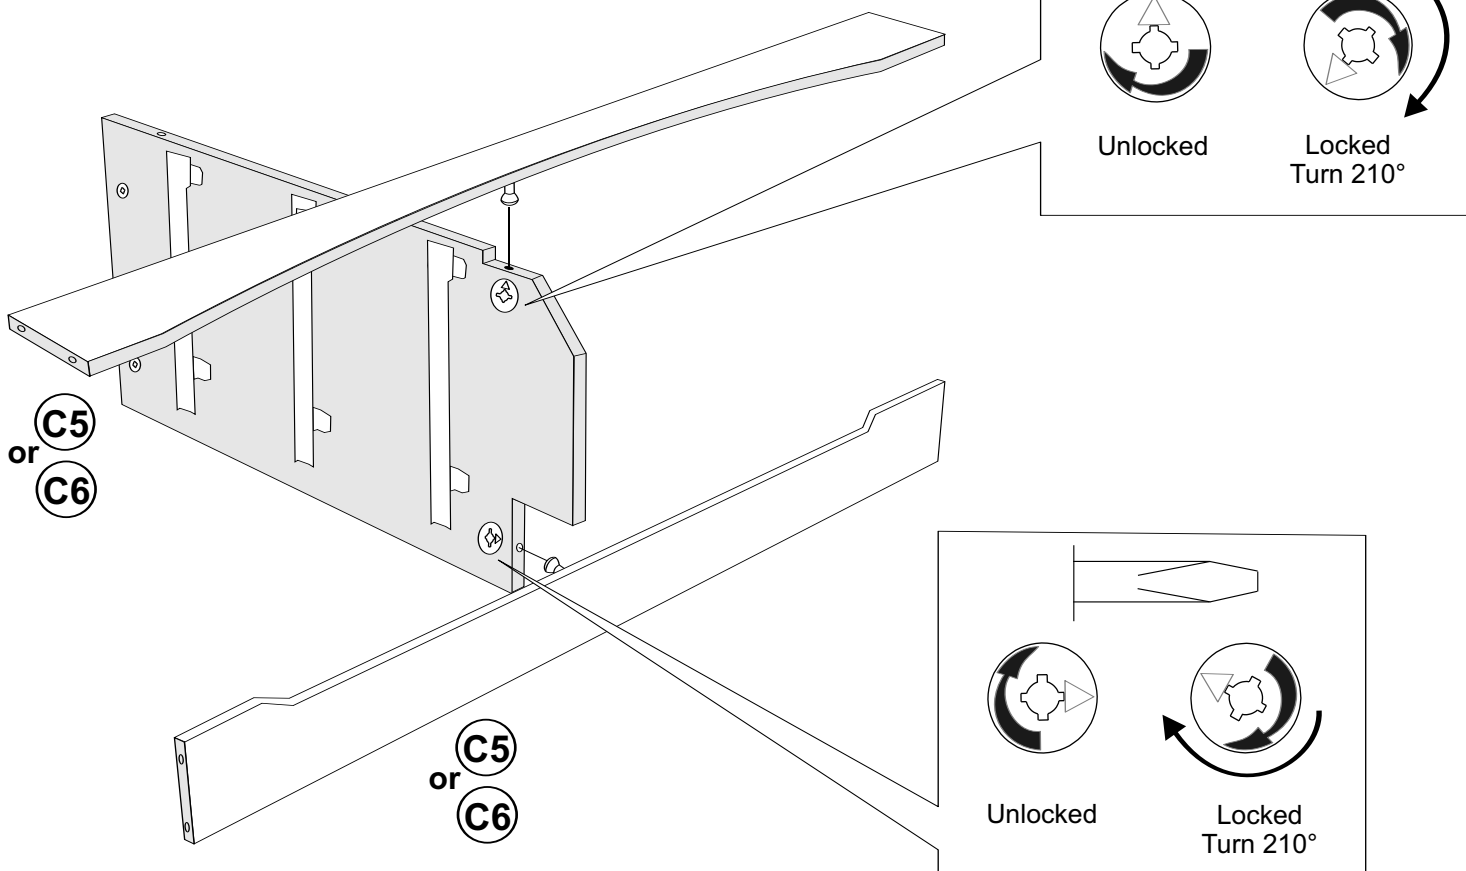

Insert Blue Rapid Rod into the center hole on each decorative stabilizer

STEP 5 Estimated Time: 5 minutes

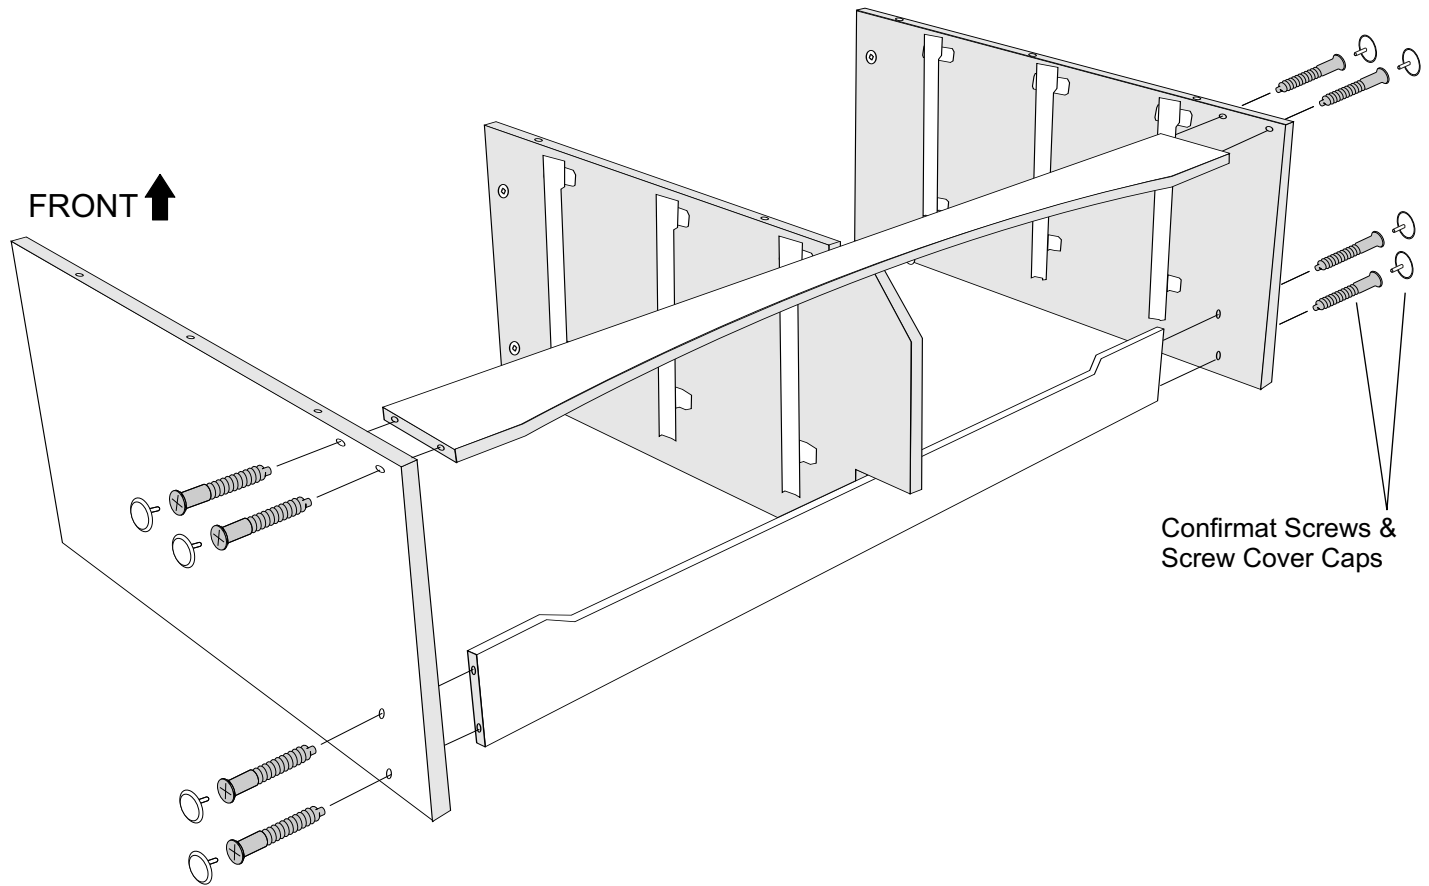

Decorative stabilizers **C5** & **C6** are interchangeable.

- 5a** Choose the style that you prefer, and attach it to the front of the center divider
- 5b** Attach the remaining stabilizer to the back of the center divider
- 5c** Lock both cams with a flat head screwdriver

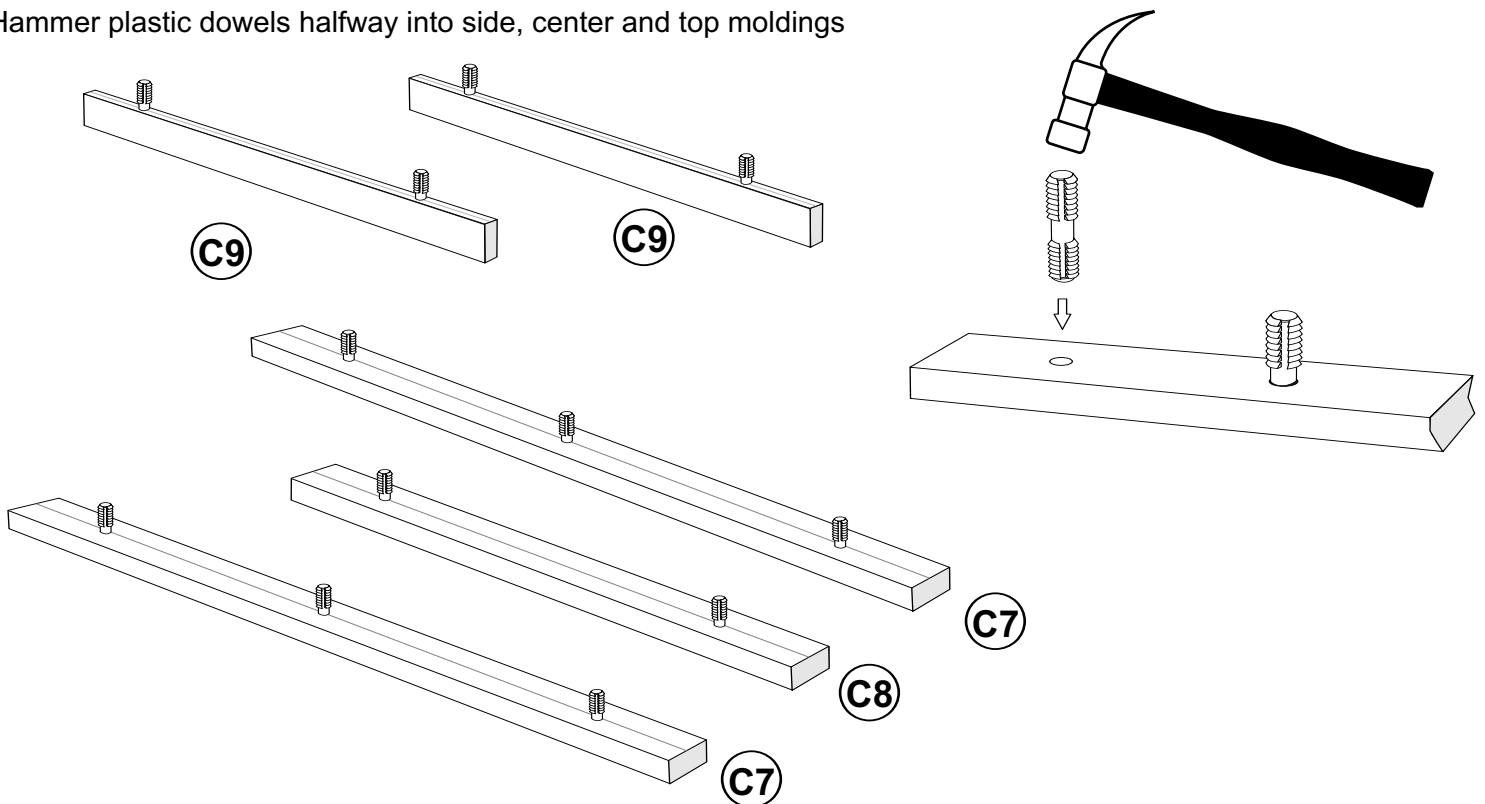

STEP 6 Estimated Time: 10 minutes

Attach both stabilizers to left and right sides using Confirmat screws. Insert screw cover caps to finish.

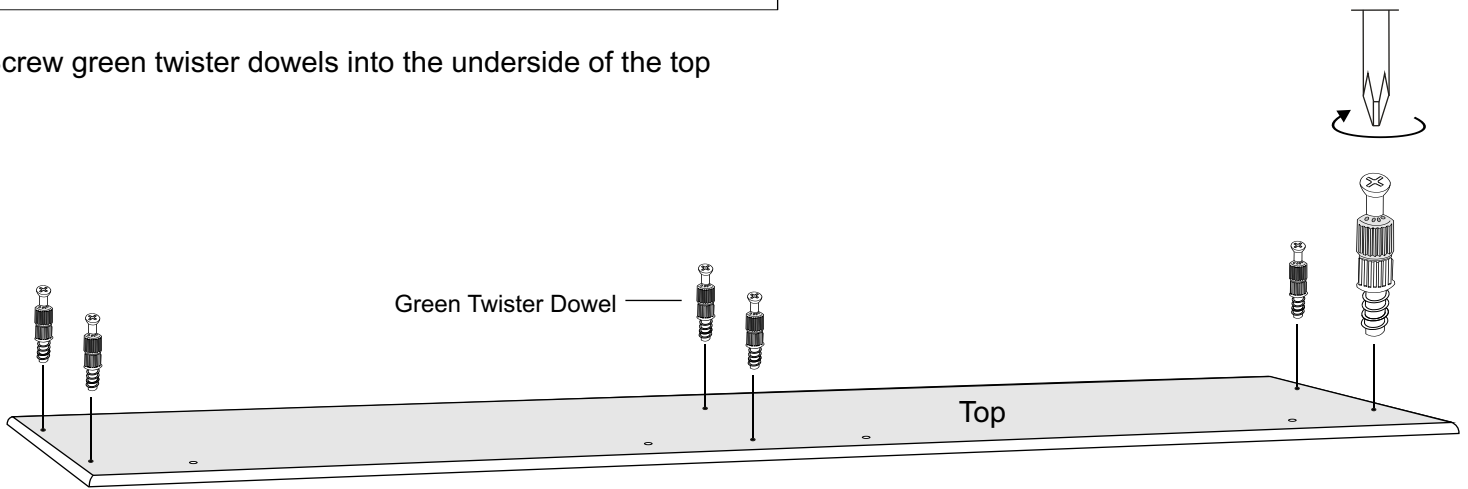

STEP 7 Estimated Time: 3 minutes

Hammer plastic dowels halfway into side, center and top moldings

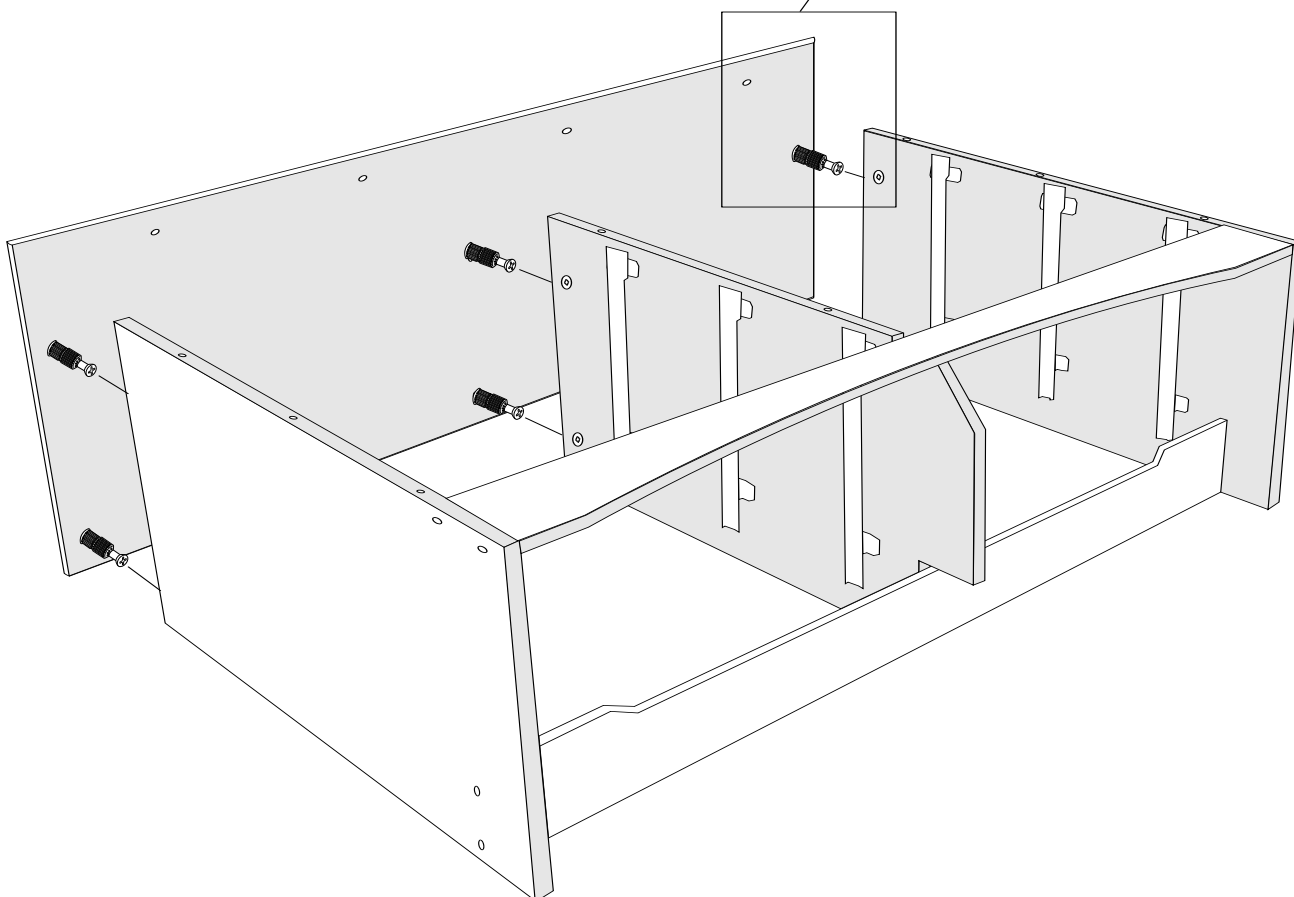

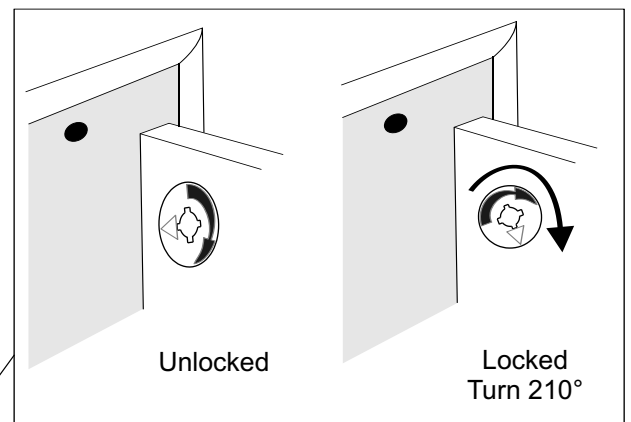

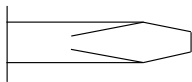

STEP 8 Estimated Time: 2 minutes

Screw green twister dowels into the underside of the top

STEP 9 Estimated Time: 2 minutes

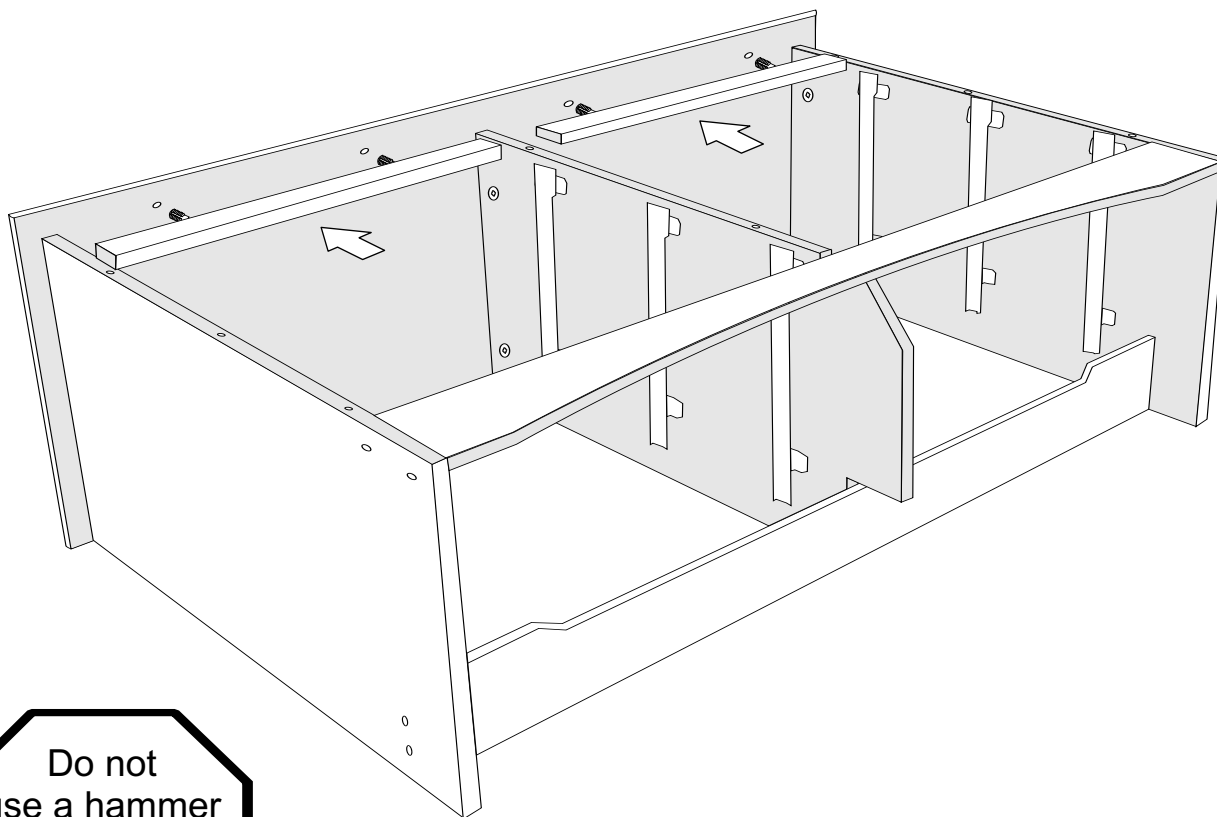

Attach top to sides and lock cams using a flat head screwdriver

STEP 10 Estimated Time: 3 minutes

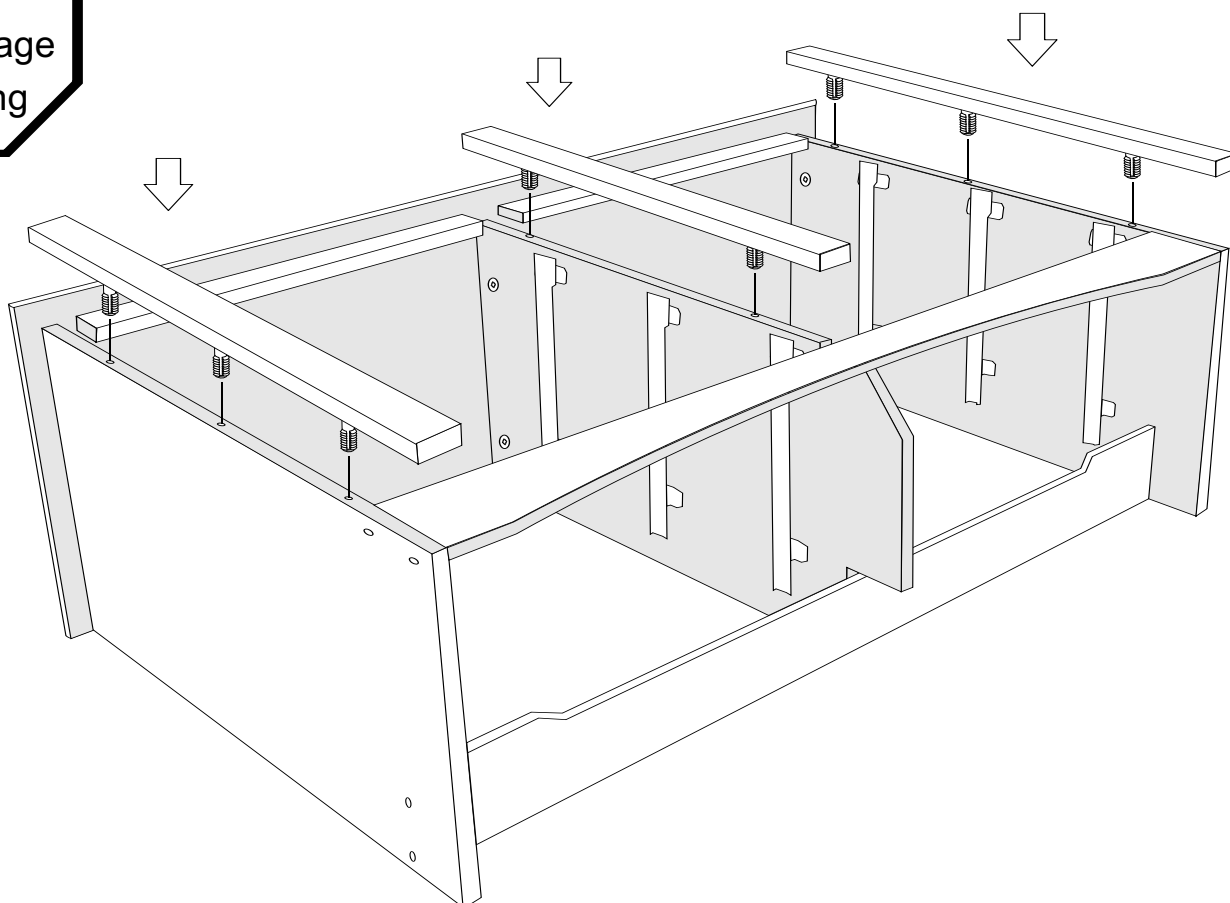

Attach top & side moldings.

Using your hands, apply even pressure to moldings and press firmly

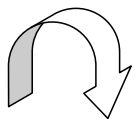

Do not
use a hammer

It may damage
the molding

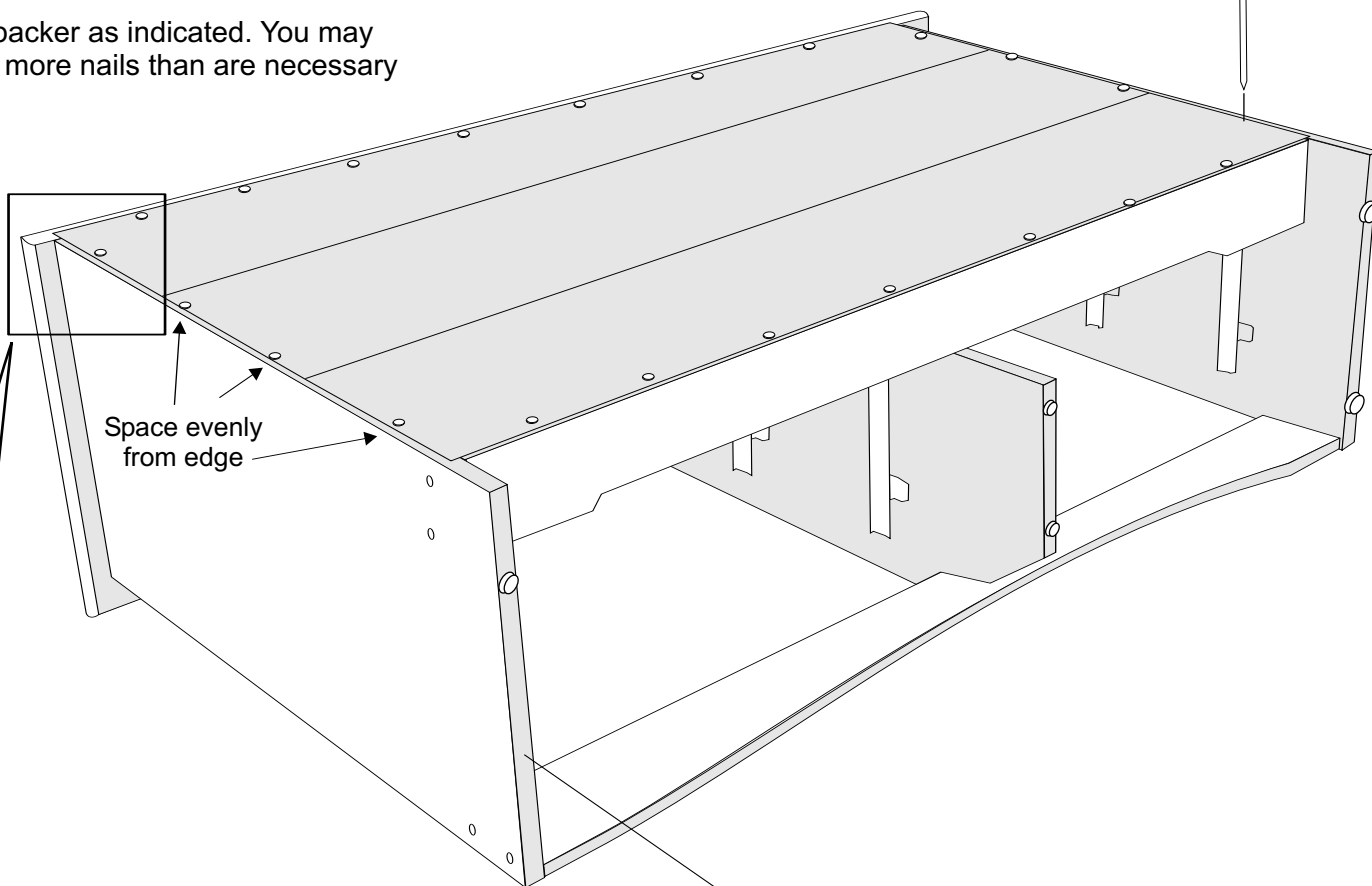

STEP 11 Estimated Time: 4 minutes

Carefully turn dresser over and attach backer and levelling feet

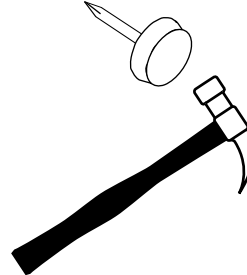

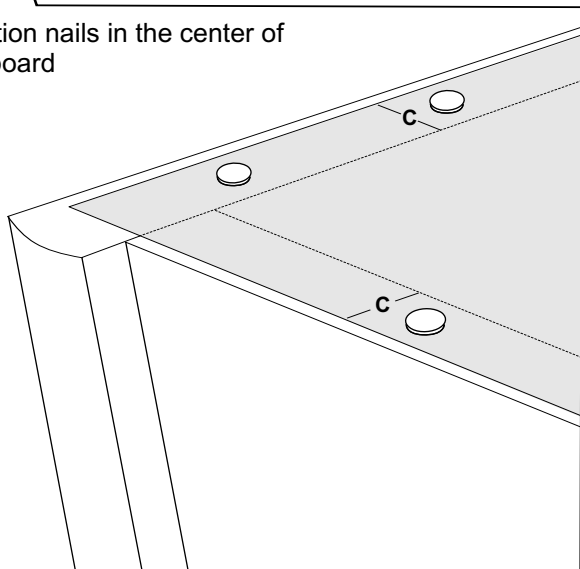

Nail backer as indicated. You may have more nails than are necessary

Space evenly from edge

Position nails in the center of the board

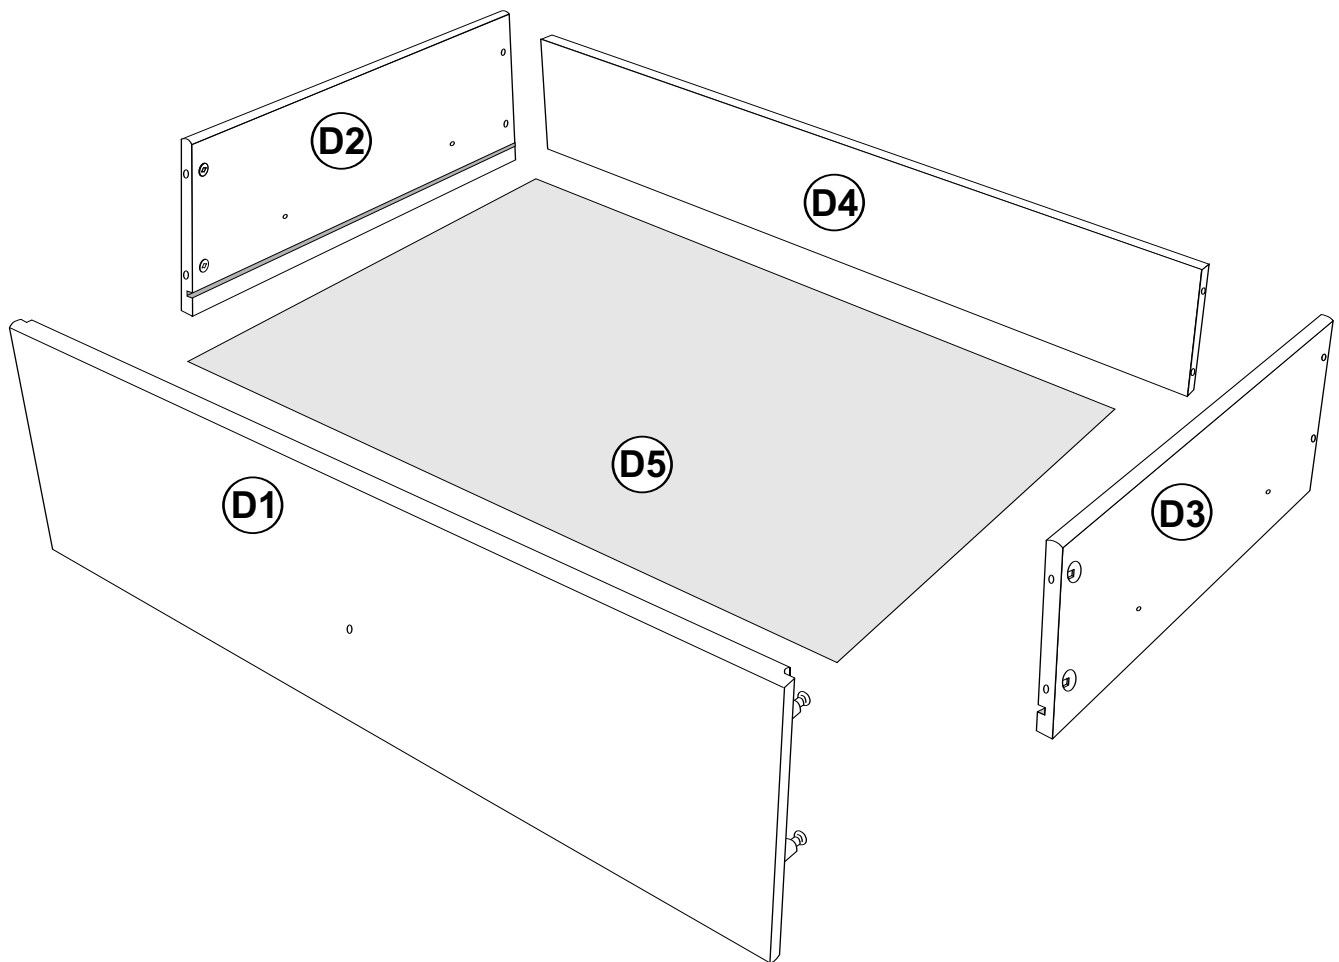

Hammer 2 levelling feet on the bottom edge of each side and the center divider

NOTE:

Do not stand unit up without the backer fastened

Insert drawers

A.

B.

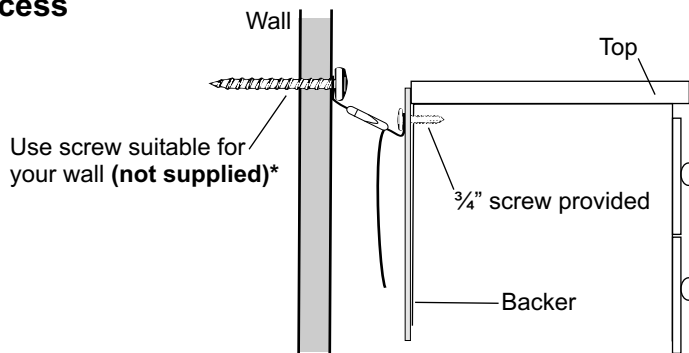

Note: When drawers are installed correctly, you will not be able to remove them without first lifting up the drawer front.

STEP 14 Attaching and Using the Safety Strap

We strongly recommend using a safety strap on all furniture, especially if small children have access

Secure product to wall using the Safety Strap and a screw suitable for your wall (**Not supplied**)*

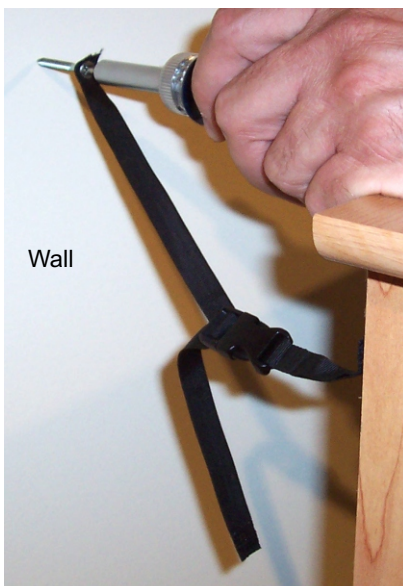

We recommend you screw into a stud. If you cannot locate a stud use a wall anchor appropriate for your type of wall.

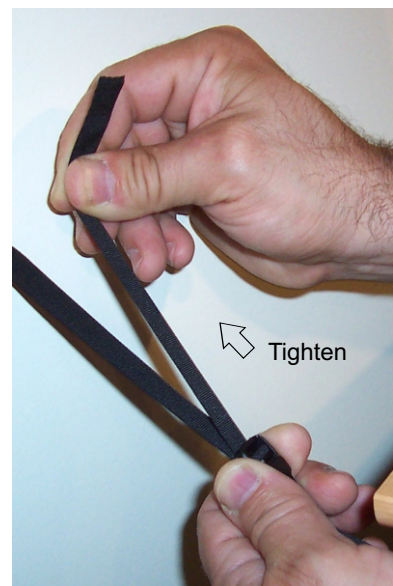

Attach one end of safety strap to one of the sides

Attach the other end to the wall

Pull remaining strap to tighten

Furniture Care Q&A

Q. How do I clean your products?

A. We recommend that you simply wipe your products with a clean, damp cloth and then dry immediately with another clean cloth to maximize the life span and look of your unit

Q. Can I paint or varnish your products?

A. Our products are made from durable composite woods with a laminate finish and therefore should not be painted or varnished.

Q. Are they waterproof?

A. NO. If liquid is spilled and quickly wiped up, no damage will be done to your product. However, continuous exposure to liquids or high humidity may cause damage to the board.
