

Organized Living freedomRail Buying & Installation Guide

freedomRail is the most innovative concept in home storage and organization. It provides all the benefits of a custom closet and garage while being easy to install, easy to adjust, and easy to upgrade.

Organized Living freedomRail Features & Benefits

freedomRail is an award-winning home organization system that puts you in control! The heart of this organization system is its ability to adjust and readjust to fit your changing storage needs. It can be customized easily for every area of your home, including closets, pantries, laundry rooms, mudrooms and more. All components are made with 30% more steel than most systems and holds up to 150 pounds every 40".

In addition to freedomRail custom closets, Organized Living freedomRail Garage offers the winning combination of strong cabinetry, shelving, work surfaces and a full line of accessories. It's made with virtually indestructible epoxy powder coating and heavy gauge steel. The unparalleled strength is a great match for your heavy duty storage needs and offers your active family endless solutions to organize any sport, hobby and activity.

- **It's trusted.** Organized Living freedomRail is the choice of new home builders and has received several awards including the only product to be recognized five years in a row on the Builder's Top Ten List.

Organized Living freedomRail Closet Storage Product Line

The beauty of freedomRail is the adjustable organization it creates in your bedroom, kitchen, pantry, hobby area, and living spaces. Start by hanging freedomRail Rails and Uprights to the space you want to organize. Once they're in place you get to choose freedomRail components to truly customize your home organization system.

freedomRail Components:

Rails

Install the Rail horizontally to the wall at 84". Level and screw the Rail to the wall and add Uprights to hang components. Available in white or nickel.

Uprights

Uprights hang onto the Rail. Build your storage solution by adding components to the Uprights. Available in white or nickel.

O-boxes

Short for Organization Box, these modular cabinets and drawers are used to create an organized space in any area of your home. O-Boxes can hang side by side horizontally, or can be stacked vertically within any closet, pantry, linen or laundry space. O-Boxes are available in 1 Shelf, 2 Drawer, 3 Drawer and Shoe Cubby options. O-Box drawers feature full extension drawer glides so that stored contents are easy to access. O-Boxes mount directly to freedomRail uprights and are available in six beautiful colors.

Wood Shelves

Made of high-quality, furniture grade melamine, wood shelves are designed for a lifetime of rugged use in any area of your home. Wood Shelving is available in six beautiful colors and is supported by freedomRail Wood Brackets so that shelves are easy to adjust.

Ventilated Shelves

Ventilated Shelves create a durable, organized storage space in any closet, pantry, office, linen or laundry area. They feature a low front profile giving you more storage space in between shelves and are ventilated for air flow. The double bars in the front and rear add strength for heavy items. Shelves securely snap onto freedomRail Ventilated Brackets. Available in white or nickel.

Wood Brackets

Wood Brackets are constructed of heavy duty steel to provide strong support for freedomRail wood shelves. Brackets lock securely onto freedomRail Uprights and can be adjusted, and readjusted, along the Upright for customized storage solutions. Available in white or nickel.

Ventilated Brackets

Our durable brackets securely lock onto freedomRail Uprights to provide strong support for freedomRail Ventilated Shelves. The ventilated shelf simply attaches onto the bracket using slotted locks for a secure hold. Available in white or nickel.

Clothes Rods & Clips

The freedomRail Clothes Rod is used below freedomRail Wood Shelves and Ventilated Shelves to create a hanging storage option. Ideal for bedroom closets, linen spaces, or laundry rooms.

The freedomRail Rod Clip provides strong support for the freedomRail Clothes Rod. Use them with the Ventilated or Wood Bracket to support a clothes rod for hanging. Simply insert into the opening on the underside of freedomRail Brackets and then snap into place.

Organized Living freedomRail Garage Storage Product Line

Start with hanging freedomRail Garage Rails and freedomRail Garage Uprights to the space you want to organize. These two components serve as the backbone of the freedomRail award-winning home storage solution. Once it's in place you can choose freedomRail Garage components to truly customize your workshop, garden shed or garage.

freedomRail Garage Components:

freedomRail Garage Rails

Decide where you want to create your storage solution. Level and screw the Rail to the wall and add freedomRail Garage Uprights to hang Garage components.

freedomRail Garage Uprights

Uprights hang onto the Garage Rail. Build your dream storage solution by adding components to the Uprights.

GO-Boxes

freedomRail Garage Organization Boxes, or GO-Boxes, can transform your garage into a customized workspace. GO-Boxes are constructed of 5/8 inch furniture grade melamine and feature a sleek attractive granite finish and black back cover. All Go-Boxes can hang side by side horizontally, or can be stacked vertically. GO-Boxes mount directly onto Garage Uprights and adjusts easily without tools to fit your changing needs. Collection (sold separately) includes a GO-Box 1 Shelf, GO-Box Accessory Doors, GO-Box Cubby and a GO-Box 3 Drawer unit.

freedomRail Garage Ventilated Shelves

Ventilated Garage Shelves create a durable, organized storage space in a garage, workshop and garden shed. Unmatched in strength, our Ventilated Garage Shelving accommodates even the heaviest loads. Easy to install, Garage Ventilated Shelves snap securely into the Ventilated Garage Brackets.

freedomRail Garage Angled Brackets

Bracket supports 12" freedomRail Garage Ventilated Shelves, slanting them at a 30 degree angle to store golf shoes, baseball cleats and garden shoes. The ventilated shelf simply attaches onto the bracket using slotted locks for a secure hold.

freedomRail Garage Ventilated Brackets

Our durable brackets securely lock onto freedomRail Garage Uprights to provide strong support for freedomRail Garage ventilated Shelves. The Ventilated Shelf simply attaches onto the bracket using slotted locks for a secure hold.

Activity Organizers

Use Organized Living Activity Organizers with any freedomRail Garage set up to create adjustable storage space for all your sports equipment, tools and supplies. Even the smallest hand tools, sports balls and gardening tools will finally have a storage space and make your life simpler by being easy to find. There are more than 20 garage organizers to choose from and matching adjustable ventilated shelves, giving you unlimited options for custom storage use. All components provide three installation methods. Keep them adjustable by mounted onto Activity Organizer Grids or onto garage slot wall, or components come with hardware so you can mount them directly to the wall.

Organized Living freedomRail Installation: Tool Belt Optional

Now that you have learned about the freedomRail product line, see how easy it is to install. With Organized Living freedomRail, you need very few tools:

- Power Drill
- 5/16 Drill Bit
- Phillips Driver
- Level
- Tape Measure
- Phillips Screwdriver
- Pencil

freedomRail is a true DIY project and can be installed in just hours. Once the rail is installed, all the other components snap into place.

1. **Add the uprights and brackets.** Uprights hang directly on the rail and can be adjusted as your needs change. Place the brackets on the uprights anywhere you're placing shelves.
2. **Add shelves and O-Boxes.** Select shelves and O-Boxes tailored to your needs for an individualized storage solution. You have the freedom to place your shelves and O-Boxes anywhere along the uprights.

The end result is freedom: freedom from clutter, freedom from stress, freedom from worry. It's the ultimate storage solution!
